THE ROAD TO EXCELLENCE

Strategic Roadmap for SQF Certification

Strategic Objectives

Transforming compliance into a competitive advantage through digital integration and team empowerment.

1

Diagnostic & Alignment

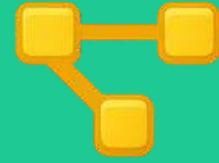

We establish the foundation and identify the current state of your facility against the SQF Code.

- **Onboarding:** Introduction of MI roles and scope definition.
- **Gap Assessment:** Rigorous evaluation of infrastructure and prerequisite programs.
- **Milestone:** Delivery of the Prioritized Gap Report and Strategic Roadmap.

2

Engineering & HACCP Build

HACCP/PC Plan

Full process mapping from receiving to final shipping.

Hazard Analysis

Identification of Bio/Chem/Physical risks per process step.

PCC & Verification

Establishing Critical Limits and formal technical approval.

Digital System Implementation

Converting physical binders into an agile, 24/7 accessible digital ecosystem.

- **Loading SOPs and PRP modules into cloud software.**
- **Configuration of digital logs with automated alerts.**
- **Implementation of version-controlled document systems.**

Zero Paper: Real-time audit readiness.

Execution & Training

100%

Bilingual Training

Empowering the Floor Team

Safety culture is built on the floor. We deliver comprehensive food safety training in both English and Spanish to ensure total engagement.

- **GMP & PRP training for all floor staff.**
- **Internal audit schedules built and running.**
- **Weekly MI reviews for record completeness.**

We transition from Consulting to Coaching mode.

Full Mock Audit: Simulating the certification day experience.

Train the Trainer: Building internal training capabilities.

Graduation Checklist: Client Practitioner leads all standard work independently.

5

Coaching & Mock Audit

Certification Day

The auditor arrives. Your team leads the audit with total confidence.
MI Consulting Group LLC provides advisory support behind the scenes

Market Access 95%

Operational Efficiency 85%

Risk Mitigation 90%

Projected Business Impact

Projections based on Tier 3 digital integration and FSMA compliance standards.

Our Core Partnership Principles

HACCP/PC Plan

The client owns every document and record from day one. No vendor lock-in.

Digital First

100% cloud-based ecosystem. Real-time visibility and zero paper binders.

Empowerment

We train your team to grow into the role, moving from support to safety net.
